<b>Academic Visits of I.O.S. (U.K) members to India</b>
---

**PLEASE PROVIDE THE DETAILS IN SUFFICIENT ADVANCE, preferably 3 months before the intended date of visit**

Dear Member,

One of the aims of IOS (UK) is academic exchange between the two countries. Indian Orthopaedic Society is in a position to arrange academic visits of I.O.S. (U.K) members visiting India, perhaps to attend as a faculty for courses and meetings arranged locally. IOS UK maintains a database of the sub-speciality interests of its members. Your invitation will be passed on to the members with relevant sub-speciality interests. Please contact IOS UK with the following details.

**Name place and dates of meeting / course**

**Area of topic you would like the faculty to cover**

**Organisation responsible for the meeting**

**Contact person / organiser of the event**

IOS UK will get the event contact person / organiser to be in touch with the faculty members. On occasion, IOS UK members may well be visiting India for family or holiday reasons at the time of the event and they may be able to participate in the event. In general, the faculty expects local hospitality. It is best if the IOS UK is kept in the loop during the subsequent communications.
