Registrar / Trainee Fellowships in India

Indian Orthopaedic Society has been constantly exploring the possibility of establishing an ongoing training programme for British trainees in India. The amount of clinical material coupled with the experience of our Indian Orthopaedic surgeons will definitely be a big boon for the aspiring trainees.

The registrars will be travelling to different hospitals in India and attend any ongoing courses and conferences. Many registrars have successfully undergone this fellowship. For example, Ms Anna Fox, a trainee from Manchester, spent a most rewarding time in India in February 2007 on an IOS (UK) travel fellowship. Please read an account of her tour by [clicking here](#).

[Please click here to view the images of her tour](#)

Indian Orthopaedic Society shall informally co-ordinate with consultants, medical colleges and hospitals in India for the placements. Assistance/advice is likely be given for accommodation and travel, although IOS UK is in principle unable to underwrite all the expenses. I.O.S. (U.K.) is not responsible if the collaboration is unsuccessful in any way. Travelling Students are responsible for their travel, stay in India. I.O.S. (U.K) does not take any social or legal responsibility during their stay.

The information on these fellowships will be advertised in the BMJ / JBJS websites, as well as the IOS UK website

Interested Registrars can contact I.O.S. (U.K.) - iosukmail@googlemail.com

CONSENT

I have read the details of the above said programme. I confirm that the information that I have provided in this form is correct and complete. I understand and accept that if I withhold information or do not comply with the guidelines and policies of IOS (UK) it may result in withdrawing my application. I understand that the role of I.O.S. (U.K.) is limited to coordination of my fellowship programme with the medical institutions and hospitals. I also understand that I am responsible for all the risks and benefits during my stay in India. I.O.S. (U.K.) is only a guiding organisation and do not take responsibility during my stay in India.
